Workday - Financial Design | Senior UX Designer | 2022 - Present

- Led design of AI-powered Intake Agent and cross-agent orchestration workflows, defining interaction models for enterprise automation and human oversight; built production-ready prototypes in Cursor and React to accelerate validation and delivery.
- Designed governance controls and compliance tooling for AI-enabled workflows in highly regulated environments, establishing scalable oversight patterns for enterprise automation.
- Partnered directly with healthcare and public-sector customers to shape product strategy and validate AI-assisted workflow concepts before roadmap commitment.
- Pioneered a design-to-code workflow using Cursor and React, becoming the first designer in Financials to contribute production-ready implementations and helping establish new practices for designer-led development..

Diligent - Admin Experiences | UX Designer 3 | 2021 - 2022

- Redesigned role-based access provisioning and de-provisioning workflows—reducing admin task time by ~70% through clearer, error-reducing interaction design.
- Established a cross-product design system for admin workflows, standardizing patterns, reducing interaction friction, and enabling consistent, high-quality experiences across multiple product surfaces.

Copperleaf | Product Designer 2 | 2019 - 2021

- Designed a workflow configuration tool for enterprise admins—enabling complex, multi-step asset evaluation processes to be set up and managed without engineering dependency.
- Extended the design system library with reusable, interactive components (including drag-and-drop interactions), accelerating prototyping and improving visual and interaction consistency across admin surfaces.

Skills

Interaction design · Visual design · Design systems · Prototyping · Usability testing · Generative & evaluative research · Strategic thinking · Cross-functional leadership · Design thinking · React (UI build) · Agentic / AI product UX

Education

University of British Columbia

Master of Digital Media | 2019
